## Aaron Alexis:

Hello,

My name is Aaron. I am ex-navy, and have been working as a contractor for the DoD. I have recently come under attack after blowing up at Norfolk airport in Virginia.

The first attack started coming when I was on assignment in Rhode Island. I was hearing what I though was people next door telling lies about me. In truth I didn't know that I was under attack and thought I could escape what I was experiencing, by leaving the hotel I was in. It wasn't until it almost cost me my job that I realized that one, I wasn't crazy, and that two that I had to figure out what was going on.

I am glad I found this site, however I need assistance because, I have not allowed them to scare me off my job, but I fear the constant bombardment from the ELF weapon is starting to take it's toll on my body. I am currently in DC now near the pentagon. I think I know the specific group in the military that is responsible for developing and assisting the military with.

Any assistance you can give me and at the same time what ever info I can give you on what I know please contact me ASAP.

Aaron Alexis

## Derrick Robinson:

Hi Aaron,

Thanks for writing to us. We are very familiar with government harassment using covert technologies. Feel free to join our efforts to gain freedom from the matrix.

This is a national, as well as international effort. Many are finding us because governments often are abusive and usually do not regulate themselves.

Call or write me anytime for more information about how you can become involved.

Peace & Liberty,

## Aaron Alexis:

Derrick,

I have what I believe to be the locations for where they've been developing these weapons for decades. The ELF weapons are part of the weapons systems of most of the modern vessels fielded by the Navy. I want to become part of this effort mostly for self preservation. The voices they've induced into my head are tiresome. However If I can figure out how to keep them from disturbing my sleep cycles I would be most interested to find out.

## Derrick Robinson:

Hi Aaron.

May I ask what kind of work you do? And yes these are mostly ELF weapons. Do you have access to any of the technologies being used against us?

We are also seeking ways to protect ourselves from the electromagnetic attacks. Sound like you would be a good addition to our technical team which is researching the devices and how they can be applied.

There is also a good support network in the DC area. I will connect you to them if you'd like.

Call when you can.

Derrick

## Aaron Alexis:

I don't have direct access to the equipment, how ever I do have knowledge of where some of the attacks might be coming from. I don't want to call you from my phone, they record everything I've been saying. And because I'm under the employ of the DoD I don't want to risk getting you or my self in trouble. If you can send me info on who to get in touch with, like addresses, I think would be better.

Aaron

## **Derrick Robinson:**

I notice that you have a gmail account as do I. We could use instant messenger if that would make you more comfortable.
